Enhanced Support Offerings for Colorado Customers

Colorado Time Systems introduced Enhanced Support Options, available across the United States effective January 1, 2009.

Enhanced Support allows Colorado Time Systems' customers the opportunity to purchase extended warranties, quick exchanges, 24 x 7 telephone support, and scheduled annual maintenance by selecting a program that is best suited to their needs.

The program is one of the most comprehensive in the industry and can be catered to each customer based on the size of their facility, the number of meets they run each year, and proximity to a local service representative.

Enhanced Support can be selected with the initial purchase of a product, or anytime thereafter by calling Colorado Time Systems' Customer Service group at (800)287-0653 x 256.

Based in Loveland, Colorado, Colorado Time Systems has established a reputation for precision and innovation in swim timing equipment. Since 1972, premier aquatic facilities have chosen Colorado Time Systems for platinum quality timing, scoring, and display systems.
